

Prospectus for Chinese Government Scholarship “Atomic Energy” Program of Lanzhou University

The Atomic Energy Scholarship of China (AES) was jointly initiated by the China Atomic Energy Authority and the Ministry of Education of China in 2017. Lanzhou University was entrusted to cultivate high-level specialized technical and management personnel in emerging nuclear power countries through this program.

The program is guided by the demand of the international community and aims to train applied nuclear power talents. It relies on an international talent training platform for nuclear disciplines and adopts a diversified and dual-mentor talent training model, establishing a collaborative education mechanism between the government, universities, and enterprises.

Lanzhou University, founded in 1909, is a comprehensive university directly under the Ministry of Education in China. Based on the core area of China's nuclear science and technology, Lanzhou University gives full play to the discipline advantages and characteristics, constructs a "whole chain" talent quality assurance system from the entrance training to the graduate, promotes the development of personnel training and guarantees the quality. With the good international reputation, LZU enjoys unique resource advantages in the field of nuclear power talent training.

The talent training of the Atomic Energy Scholarship Program covers degree courses, elective courses, comprehensive courses, and practical courses, and provides opportunities for visiting and interning at Chinese nuclear power plants, institutes, and bases.
